A PERSONAL STORY: MARCIA

Light Language works in the middle of the night, even after you've fallen back asleep!

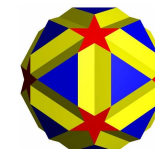

The telephone woke me at 2:30am from a sound sleep. My daughter's panicked voice asked me what hives, poison ivy, or poison oak looked like. At that hour, I don't know what any of those things look like! Her husband had a painful rash on the side of his chest and it started spreading down his thigh. I told her to take him to the emergency room to have it checked. She said she'd call when she arrived. I emanated (sent) some emergency LL shapes and colors to my son-in-law and fell back asleep.

At 3:30am, my daughter called back and said that they were at the hospital but weren't going inside. My son-in-law had checked the rash: it was gone and so was the pain. My comment: "Wow! That Light Language works!" (even when you're asleep!)

We extend gratitude to the Masters in Mexico for their willingness to share their secrets, their time, and their energy.

WHAT IS LIGHT LANGUAGE?

Light Language is based on greater-than-light speed healing techniques passed down through a long and known lineage of Mayan-Aztec Masters. It is practiced by a small tribe in central Mexico. It is practical, powerful, and useful in every area and level of life. Light Language structures everything: your home, relationships, health, prosperity, what you attract and manifest and anything that your aura or thoughts touch. Indeed, it is through Light Language that your aura is formed. It is through Light Language that SPIRIT knows what you resonate with in life.

"Most therapies and techniques work with removing the block or clearing the perception of the experiences to release them from our lower bodies. I strongly believe that if we change what it is in the higher bodies, the lower bodies will change to resonate with the energies that are coming from above."

Starr Fuentes

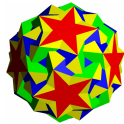

CAN I LEARN LIGHT LANGUAGE FROM A BOOK?

No. Light Language is a "caught" teaching. It cannot be learned just by reading a book or watching a video or DVD. To truly learn to work with Light Language requires sitting in the presence of a Light Language teacher. As the student sits in the trained teacher's presence, she/he subconsciously receives information out of the teacher's aura. The student literally catches the material being emanated out of the teacher's aura. From this point on, the student may emanate and write grids using the "caught" color and sacred geometry sequences.

WHEN CAN I BEGIN USING LIGHT LANGUAGE?

As soon as you complete the class. During the class, you will gain experience writing real grids (shape and color sequences) for yourself and others. Grid topics students frequently choose include: cash, love, more clients, self-esteem, mastery, life purpose, specific diseases, and the community. Some students choose to write a grid for enhancing their grid writing skills! Naturally, the more grids you write, the more integrated you and Light Language will become, and the faster and easier it will be for you to write grids. This is especially true for the level III advanced grids.

CAN I DO HARM USING LIGHT LANGUAGE?

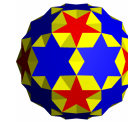

No. Since Light Language works with light, it is of a high vibration. This makes it safe to use. If a person tries to hurt someone or go against free will, either consciously or subconsciously, the grid of color and shape sequences will dissipate, because the intention set is not of the Light. A person cannot take light and go against the highest light. Any attempt to do so will make a grid null and void and wastes time and energy.
