

## **Rising Star Healing System**

Private Healing Sessions

The Masters tell us the **Rising Star Healing System** is the most powerful healing system on the planet at this time.

It encompasses all other healing systems,  
plus adds more healing as well.

It has been given to us as a tool to help us move toward enlightenment.

**A Source to Source system**, (coming directly from the Source above to the Source within you with no one in between) **Rising Star** works on all levels of your systems – physical, emotional, psychological, spiritual, etheric, energetic, etc. and brings your body, mind, and spirit **back into balance**.

It works on all 7 body systems.

The 7 body systems are like 7 layers of energy around you.

**The Rising Star** raises the vibration of your energy field and restructures your energy circuits for holding a higher frequency.

On the spiritual level, Rising Star can **activate DNA** up to the 40<sup>th</sup> strand.

With each Rising Star session, as much DNA as you are ready to have activated is activated. When that is fully integrated and you are ready to have more DNA activated, you will get a strong feeling to receive another Rising Star session.

Once you have had a session, the Rising Star continues to work on one chakra per day and any unresolved issues connected with that chakra, for a total of 21 days.

**The Rising Star system is above the level of Master in Reiki; it does not replace other systems, it is just the next step.**

The Rising Star helps promote Unity Consciousness and the Masters have said if humanity catches on to the Rising Star, we will have world peace within a few short years.
